

STC Technologies

Hosted Voice

Who is STC Technologies?

STC Technologies' approach is simple – we work with trusted providers and proven technologies to give you the best telecommunication solutions. STC provides hosted VOIP solutions, SIP trunks, are Chicago's largest authorized NEC business phone system dealer, but when it comes to voice and data access we have dozens of providers we work with. This allows us to be neutral and work on your behalf to find the best solutions and provider for the right price. STC's highly trained sales engineers can help design a business phone system and internet solution that will take the best of today's telecom market and make it easy to understand so you can make the right choice for your business.

What Makes STC Technologies the Clear Choice?

Simplicity. Future-proofed.

That's what you get from us right out of the box. Our support for our customers is second to none, and our experienced support team endlessly strives to enable your success, evolving as your needs do in order to facilitate a truly future-proof solution that improves your business now, and maintains its success for years to come.

With diverse knowledge of the cloud communications industry, we're able to provide our customers with the exceptional people, proven processes, and innovative technology they need, while eliminating the complexity of traditional communication solutions.

The Future is Here. Are You?

The communications industry is undergoing unprecedented technological innovation. Cloud software continues to flip the industry on its head, enabling explosive growth through a business model that allows companies like yours to utilize high-value software and services like Hosted PBX and VoIP, SIP Trunking, Unified Communications, and much more.

Did you Know?

40% savings over traditional phone systems

Mobile VoIP **1 BILLION** users to reach by 2017 (Juniper Research, 2012)

SIP Trunking

We offer SIP Trunking (virtual phone utilizing broadband access connection) solutions for any sized-business—whether you're a small business looking for the flexibility and cost savings of VoIP or a mid-sized business looking for business continuity, disaster recovery, and unlimited or metered calling plans, we help you save up to 40% over traditional telephone lines.

Hosted PBX and VoIP

You want reliable, high-quality phone systems that simply work. And with your business in a constant state of change, sometimes simple suffers. But today, transforming your phone system is simple regardless of your business—whether you have five employees or 500.

- Dissolve costs of traditional phone closets
- Full PBX capabilities utilizing easy interface
- Low monthly phone bills (including VoIP services)
- Future-proof your phone systems

Virtual Auto Attendant & Mobile VoIP

Get unlimited auto attendants, extensions, and mailboxes—all configured to meet your exact requirements. You'll be able to utilize an unlimited combination of IP desk phones and softphones, while seamlessly integrating your call flow with your wireless technologies.

Unified Communications

Unified Communications (UC) is the seamless integration of voice, presence, chat, data, applications, and other technologies that help drastically improve your communication processes and business productivity. Our software and services enable you to access your account and seamlessly incorporate our high-value cloud communication services.

- **Mobility:** Access the information you need (internet connection required).
- **Manageability:** Small to mid-sized businesses can provide a simplified, service to compete more effectively with the competition.
- **Multi-User:** Large groups of workers or customers can collaborate on discussions or share resources, helping to maximize your budget.
- **Scalability:** With the constant change in technology, scalability is huge in today's business world and with UC, your services can be provided on a per-customer basis, cutting down unnecessary costs.
- **Disaster Recovery:** Your business can rest easy in a server emergency with the use of UC, where your data can be backed-up for rapid recovery.

API Integration

We've created several plugins and applications to help you such as click to dial, screen pops, call logging, and presence. The Operator console delivers all this and live visibility into your account for call control, call parking, visual voicemails and much more.

Personal Flexibility

Our reliable, feature-rich hosted phone services adjust as you need them to. We make it easy for our customers to deploy the communication apps and solutions that your business needs, creating an in-office experience right at your fingertips, wherever you are on whichever device you choose. Commonly used features include: full call center capabilities, listen live, find me follow me and more.

Mobility Mastered

Mobility is paramount in today's business world. Keep your company connected with a wide array of mobile features—from simultaneous ring to remote call control to help you conduct business anywhere through any device.

Business Continuity

Eliminate operational loss should part of your communications network go down. A recovery plan will help your business save itself! Insure your future by providing your business with the necessary protection, including e-mail archiving, data backup and restoration, upgrades, information protection, disaster recovery, and more. With parallel systems put in place in different locations to ensure business continuity even if a natural disaster occurs, we keep you covered.

Customer Tested

Our products and services are customer tested, and approved—we've enabled countless businesses to improve their communication channels easily, and effectively, to transform their business into a competitive powerhouse. With a full range of front and back-office features, you can rest easy knowing your business is taken care of, now and for the future.

Supportive Staff

We're here to support your business at every level with our always-available, personable support team. We'll help you with your specific needs and concerns, while giving you personalized customer support you won't find anywhere else.
